WOMAN'S BULLET WAS MEANT FOR HER OWN BREAST

Mrs. Castle Says She Had No
Intention of Killing Wil-
liam Craig.

DENIES SHE ANNOYED
HIM WITH ATTENTIONS

MAN INSISTS ON FILING COM-
PLAINT IN SPITE OF WO-
MAN'S PLEA.

New York, Aug. 4.—The bullet from her revolver that struck and slightly injured William D. Craig yesterday while in a corridor of the Waldorf-Astoria, was intended for herself, declared Mrs. Nellie Castle today at the police headquarters, where she was taken before arraignment in court after a night spent in a cell in the Tombs prison. Heavily veiled, and apparently laboring under a severe mental strain, Mrs. Castle was taken to headquarters for the usual inspection at the detective bureau. The indignity of being photographed and measured was spared her.

To the officers of the bureau, Mrs. Castle talked freely about herself and the train of events which led up to the sensational climax of yesterday. She went over her stage experience, which she began in San Francisco, where she appeared in the "Girl of the Golden West." Craig, who is a lawyer, now practicing in this city, she said she had known since he was a child. Denying the imputation that she had forced her attentions on him, she declared that, on the other hand, he had been following her so persistently for the last five months that she was afraid he would compromise her.

"I intended to kill myself," Mrs. Castle told the detective bureau's chief, "and had the revolver in my hand, but he was struck by the bullet I had intended for myself. I knew Mr. Craig went to the rooms of the Rocky Mountain club, and after he passed me without taking notice of my presence, I said to him, 'Well, don't pass without noticing me. I am going to shoot myself.'"

According to Mrs. Castle's statement, Craig told her to go ahead and do it. "I can show that Stanford White and a number of wealthy friends did maintain several establishments where young girls were invited, and that an attempt really was made to seduce the state's attorney," she said.

He intimates that he has some surprise in store for the remaining days of the hearing, including the release of the woman who testified as to what Thaw knew of White.

The full routine of expert testimony was jarred today by an interruption from Pietro Caporale, a wild-looking Italian, who had been hanging about the place for several hours and who had been talking his way into the room. When the attorneys refused him admission, he waved a letter and demanded to see District Attorney Jerome.

"Tell Thaw they will rob him as they robbed me of my children," he yelled repeatedly.

It developed that he wanted Mr. Jerome to retain the release of the woman who testified as to what Thaw knew of White. After Dr. William J. Meyer, one of the attorneys, had pronounced him probably a harmless lunatic, the man was placed on a train and sent to New York.

State of Grandeur.
Dr. Austin Flint, who yesterday said Thaw was a paranoiac and incurable, again took the stand today. Mr. Morschauer examined him regarding the sanity proceedings of Mrs. Penelope Osborn, in which he appeared as an expert in 1907. Thaw's lawyer declared that Mr. Flint's testimony resulted in this woman's discharge, although he claimed her as paranoiac.

Mr. Morschauer amused the court room when he held up a can of baking powder with Dr. Flint's signed endorsement printed on the label and said it contained alum. Dr. Flint said he knew of the existence of this exhibit.

Jerome enabled him to explain that he was employed in 1900 by a baking powder company to investigate the effects of alum in baking powder. "I did not authorize my endorsement," he declared, "and I threatened to bring legal action if it were used."

Dr. Flint told Jerome that Mrs. Osborn's delusion was that a club of persons whose names ended with "ley," and that the murderer of President McKinley was a member. She told him, however, during her examination that she was not sure she was right. In condition, he insisted, was quite different from Thaw's.

"Did you testify either before the sanity commission or Judge Morschauer," said Mr. Morschauer, "that Thaw, in the progress of his alleged 'exaggerated ego' had reached the state of 'grandeur'?"

"I probably did," replied Dr. Flint. Mr. Jerome then called the last of his witnesses.

THAW'S COUNSEL MUST PROVE HIS CLIENT IS SANE

State Rests After More Alien-
ists Testify That Paranoiac
Would Be Menace.

SENSATION PROMISED
WHEN LETTERS ARE READ

WHITE'S PRACTICES WITH RE-
FERENCE TO YOUNG GIRLS
MAY BE REVEALED.

White Plains, N. Y., Aug. 4.—The state rested in the Thaw case today and from now on it devolves upon Harry K. Thaw and his attorney, Charles Morschauer, to offset the testimony of the state alienists, who have sworn without exception under the cross-examination of District Attorney Jerome, that Thaw is still insane and would be a menace to the community if released from the asylum at Matteawan.

Dr. Carlos F. MacDonald was the last alienist called by the state. He was followed by John B. Gleason, Thaw's original legal adviser after the shooting of Stanford White. Mr. Gleason came to Thaw's aid this afternoon and cleared up a few old mysteries, sweeping away some of Thaw's apparent vagaries upon which Mr. Jerome has dwelt so persistently.

Mr. Gleason's most advantageous statement, from the prisoner's standpoint, concerned the dropping of the law firm of Black, Grube, Cleoff & Bonyage and of Delafield and the engagement of Delphin M. Delmas as chief counsel for Thaw. This had been done at his (Gleason's) orders, he said, and was not due to a whim of Thaw's.

Through Mr. Gleason, Thaw's lawyer hopes to show that Thaw's attitude toward Stanford White was not due to delusions, as the state contends, but was prompted by what Thaw knew of White's practices. Mr. Gleason has about fifty letters received from Thaw which may prove one of the sensations of the hearing tomorrow if read. Mr. Morschauer tried to prove the charges against White today by reading parts of Evelyn Thaw's testimony at the trials. Thaw's letters to Gleason bear upon this, it is thought.

Sensation Is Promised.
Trying to clear Thaw of another "delusion," Mr. Gleason presented a report of a letter from Thaw to a friend, dated on Thaw's life, Dec. 23, 1903. The wording of this document was not made public, but it was stated that it contained the state's contentions that Thaw had delusions concerning the "Monk" Eastman game which had been engaged by his enemies to beat and perhaps kill him.

If he can show that Stanford White and a number of wealthy friends did maintain several establishments where young girls were invited, and that an attempt really was made to seduce the state's attorney, he will be able to disprove some of the "delusion" evidence of the state.

He intimates that he has some surprise in store for the remaining days of the hearing, including the release of the woman who testified as to what Thaw knew of White.

The full routine of expert testimony was jarred today by an interruption from Pietro Caporale, a wild-looking Italian, who had been hanging about the place for several hours and who had been talking his way into the room. When the attorneys refused him admission, he waved a letter and demanded to see District Attorney Jerome.

"Tell Thaw they will rob him as they robbed me of my children," he yelled repeatedly.

It developed that he wanted Mr. Jerome to retain the release of the woman who testified as to what Thaw knew of White. After Dr. William J. Meyer, one of the attorneys, had pronounced him probably a harmless lunatic, the man was placed on a train and sent to New York.

State of Grandeur.
Dr. Austin Flint, who yesterday said Thaw was a paranoiac and incurable, again took the stand today. Mr. Morschauer examined him regarding the sanity proceedings of Mrs. Penelope Osborn, in which he appeared as an expert in 1907. Thaw's lawyer declared that Mr. Flint's testimony resulted in this woman's discharge, although he claimed her as paranoiac.

Mr. Morschauer amused the court room when he held up a can of baking powder with Dr. Flint's signed endorsement printed on the label and said it contained alum. Dr. Flint said he knew of the existence of this exhibit.

Jerome enabled him to explain that he was employed in 1900 by a baking powder company to investigate the effects of alum in baking powder. "I did not authorize my endorsement," he declared, "and I threatened to bring legal action if it were used."

Dr. Flint told Jerome that Mrs. Osborn's delusion was that a club of persons whose names ended with "ley," and that the murderer of President McKinley was a member. She told him, however, during her examination that she was not sure she was right. In condition, he insisted, was quite different from Thaw's.

"Did you testify either before the sanity commission or Judge Morschauer," said Mr. Morschauer, "that Thaw, in the progress of his alleged 'exaggerated ego' had reached the state of 'grandeur'?"

"I probably did," replied Dr. Flint. Mr. Jerome then called the last of his witnesses.

AS GOVERNOR JOHNSON SEES IT.

The Fat Boy—"There Ain't Going to Be Any Core to This Apple."

ALL AMENDMENTS TO BE SMOTHERED

Concurrent Resolution on
Shoes Will Not Suffer Any
Change in Senate.

Washington, Aug. 4.—Every amendment offered to the concurrent resolution to correct the tariff conference report so as to make reductions in boots and shoes and harness and saddlery apply to manufacturers from calfskin as well as leather hides heretofore dutiable probably will be laid on the table.

New York senators who desire to have changes made in the conference report called on Senator Aldrich today with requests that he lend his influence toward the acceptance of such changes, but uniformly he replied that the resolution could not be opened up to cover subjects other than the leather schedule and the necessary changes in the maximum and minimum provision.

It is difficult to forecast the length of discussion on the concurrent resolution, but there is said to be little prospect of a final adjournment before Friday.

An agreement has been entered into between Senator Aldrich and other senate leaders with leaders in the house, by which the chairman of the finance committee will undertake to defeat all of the amendments mentioned, as well as any other proposition which may be submitted. In accordance with this understanding, Mr. Aldrich will announce at the outset his intention to move to lay all amendments to the resolution on the table. He hopes that this action will deter all senators from offering amendments.

Mr. Payne said today that he did not anticipate any difficulty in getting the resolution through the house. Some of the members of that body appreciate that there may be trouble in holding a quorum, and they predict the postponement of the adoption of the resolution until December.

GREECE REPLIES TO TURKEY

Declares That Affairs of Crete Are in
Hands of Four Protecting
Powers.

Constantinople, Aug. 4.—Greece has replied to the Turkish note presented today, which, although couched in friendly terms, practically demands the recall of the Greek officers serving in Crete, to the effect that the question is in the hands of the four protecting powers of Crete, in whose knowledge and consent the officers in question were sent to the islands. Turkey is appealing to the four powers, and she intimates that her friendly request to Greece will be followed, unless satisfaction is obtained, by a more energetic demand.

MULLANEY TO BE CHIEF.

Former Newspaper Man to Head Chi-
cago's Department.

Chicago, Aug. 4.—Bernard J. Mullane, private secretary to Mayor Busse, was asked tonight by the mayor to accept the office of chief of police of Chicago, which was made vacant earlier in the day by the resignation of George M. Shippy. It is probable Mullane will accept. The threatened street car strike had a great deal to do with bringing the situation to a head.

Mullane is 38 years old. He was a political reporter on various Chicago papers for many years. If he accepts, Chicago's police department will have its first civilian head since Joseph J. Badenoch, who was appointed in 1885.

BANKER IS KILLED.
San Luis Obispo, Cal., Aug. 4.—W. H. Sudden, a banker of Lompoc, Santa Barbara county, was killed near Santa Margarita this evening when his automobile went over a steep embankment, crushing him to death.

ORIGINAL SUM NEARLY DOUBLE

Urgent Deficiency Bill Carries
More Than One Million
Dollars.

Washington, Aug. 4.—Carrying an aggregate appropriation of \$1,100,000, or \$666,000 more than originally reported, the conference report on the urgent deficiency appropriation bill was adopted by the house today. Bitter opposition was directed against the provisions of the bill respecting the establishment of a customs court and providing for the purchase of automobiles for the vice president and the speaker of the house, but all attempts to send the report back to the conferees for amendment were defeated.

The report appropriates \$25,000 to pay the expenses of the proposed customs court, but does not provide for the organization of the court. It also makes the following appropriations: One hundred thousand dollars to the department of state for foreign trade and treaty relations; \$100,000 for collecting the corporation tax; \$12,000 for automobiles for the vice president and the speaker; \$24,000 for the Alaska-Yukon-Pacific exposition.

The report also authorizes contracts for the construction of the isthmian canal to the extent of the total amount of the bonds authorized.

TALK POLITICS IN SENATE

"Regulars" and "Insurgents" Predict
Effect of Their Course on Po-
litical Future of Party.

Washington, Aug. 4.—As though protesting against being called out to a night session, senators were very tardy in their attendance upon the meeting of the senate tonight.

Nearly an hour passed after the appointed time before a quorum could be assembled. It was finally obtained after an order had been issued to the sergeant-at-arms to bring in the absentees. The entire session was consumed by speeches by Senators Cummins of Iowa and Daniel of Virginia.

During the evening a political debate was injected into the proceedings and "regulars" and "insurgents" bandied accusations as to the effect their course would have upon the political future of their party.

GRANT GETS FINE JOB.

Grandson of Famous General Mounts
Ladder.

Washington, Aug. 4.—First Lieutenant Ulysses S. Grant III, Corps of Engineers, grandson of President Grant, has reported at the war department and formally assumed his new duties as superintendent of the state, war and navy buildings.

The detail as superintendent of the "largest office building in the world," is made by joint action of the secretaries of state, war and navy, and was given to Lieutenant Grant on the recommendation of General Marshall, chief of engineers.

Lieutenant Grant formerly served as an aide to President Roosevelt, and he may be assigned to similar duty with President Taft this winter, in connection with his other duties. Lieutenant Grant's wife is the daughter of Senator Root.

TO PROTECT SEALS.
Victoria, B. C., Aug. 4.—News was brought by the steamer Tanga Maru that in consequence of renewed raiding at the Copper Island seal rookeries in the north Pacific, the Russian government has ordered two transports lying at Vladivostok to be fitted up as auxiliary cruisers and used to assist the Russian cruisers Shilka and Amur, and the gunboats already engaged in the Russian sealing waters.

CHILDREN MADE VICTIM OF PLOT

Kidnaping Believed to Have
Been Carefully Planned
and Executed.

St. Louis, Aug. 4.—The discovery today that three trunks had been shipped from St. Louis to Chicago by men suspected of kidnaping Grace and Tommaso Viviano, confirmed the St. Louis police in the belief that the disappearance of the children and the demand for \$25,000 ransom was the result of a carefully worked out blackmailing plot, which did not, however, contemplate harm to the children.

The Chicago police telegraphed the belief that the trunks contained the children's bodies. They were opened, however, and found to contain only clothing.

The St. Louis police theory of the trunks is that they contain the property of Samuel Turrisi, who is believed to have lured the Viviano children from their home, and other members of the blackmailing band. The trunks were taken from the express office here Monday afternoon.

The fact that the trunks left almost at the same time the children were kidnaped, and that four strange men left the Pagano home fifteen minutes after the trunks were taken away, led the police to believe that the kidnapers shipped their property to a place where they believed it would be safe from search, while they were negotiating with the Vivianos for ransom.

The important arrests in the case today numbered three, the prisoners being Lamarcia Giroloma, who hailed from the trunk to the express office here Monday; Pietro Fanare, a grocerman, who was Giroloma's employer, and another employee of Fanare's establishment.

The police learned through newspaper reporters that Marchese Benedetto, a cousin of Turrisi, had been missing from his home since Monday. He had sold out his business the day before, saying he was going to California. It is thought, however, that he may have gone to Chicago and his part in the plot was to receive the trunks.

LOS ANGELES SPREADS OUT

Will Ultimately Be in Control of
San Pedro Harbor.

Los Angeles, Cal., Aug. 4.—The first step in the movement for a greater Los Angeles through the acquisition of the two small municipalities adjacent to the harbor of San Pedro, was successfully accomplished today, when the electors of Wilmington and Los Angeles voted to consolidate the two cities.

The result of today's election is to give the city of Los Angeles control of the portion of the inner harbor of San Pedro controlled by the tidelands, the shores of which are to be reached by various channels, now being dredged under direction of the government and the city of Wilmington, and at the expense of both.

On August 14 the city of San Pedro will vote on the proposition to consolidate with Los Angeles. Should the proposition carry, Los Angeles will be in full control of the entire harbor.

CZAR VISITS KING.

Cowes, Aug. 4.—Emperor Nicholas came ashore from the imperial yacht Standart this afternoon for the first time since his arrival last Monday, and in company with King Edward, visited the naval station at Osborne. Before returning to the British royal yacht Victoria and Albert for luncheon, Emperor Nicholas and King Edward visited Consul, dowager duchess of Manchester. The duchess was formerly Miss Zynaga of New York.

CHIEF OF COMMISSARY.

Denver, Aug. 4.—Captain J. E. Bloom has relieved Major Ruthers as chief commissary of the department of Colorado.

WIELDS THE AX ON INSURGENTS

Speaker Cannon's Committee
Appointments Filled With
Grief for "Bad Boys."

WEEKS STICKS IN CRAW

WILL BE CHAIRMAN OF POSTOFFICE COMMITTEE.

Washington, Aug. 4.—Speaker Cannon is expected to announce his decision with regard to committee assignments tomorrow. That they will not be altogether satisfactory is already indicated by gossip heard about the chamber. The selection which is expected to cause a great deal of comment and incidentally considerable concern is the designation of Representative Weeks of Massachusetts to be chairman of the committee on post-offices and postroads. It is understood that Mr. Weeks does not favor the postal savings bank proposition, and that his attitude regarding that legislation, which was proposed and recommended by George L. Meyer, formerly postmaster general, has had some influence with Mr. Cannon in making the selection.

The fact that Representative Gardner of New Jersey, who would be entitled to the chairmanship of the postoffice committee from the designation of rank and service on that committee, today for the first time voted with the rules "insurgents" and the Democrats on the urgent deficiency bill, was taken to indicate that he regards Mr. Weeks' appointment as assured.

Gardner Gets the Ax.
Representative Gardner of Massachusetts, who it is said would also be affected by the appointment of Mr. Weeks because of his affiliation with the Lodge forces, is to lose his chairmanship of the committee on industrial arts and exhibitions. It was understood that this action would be taken by the speaker because Mr. Gardner was one of the leading "insurgents" at the opening of the present session. Representative Rodgers of Illinois, it is said, will succeed Mr. Gardner.

"Speaker Cannon did not try to make any bargain with them about my chairmanship," said Mr. Gardner today. He admitted that he understood that he would lose the committee on industrial arts and exhibitions. "It is true, however, added Mr. Gardner, 'that in conversation I have freely stated that I hoped that all the insurgents would retain their chairmanships or else none of them.'"

Taft May Save Cooper.
Representative Cooper of Wisconsin, who was also an "insurgent" against the rules, may retain the chairmanship of the committee on insular affairs. It is reported that President Taft had intervened with Speaker Cannon in his behalf. On the other hand, it was learned from equally reliable sources that Representative Fowler of New Jersey, chairman of the banking and currency committee in the last session, would lose his committee. The fate of Representative Davidson of Wisconsin, another "insurgent," remains uncertain. He was chairman of the committee on railways and canals.

ANOTHER RESOLUTION.
Sale of Byproducts of Bonded Wheat to Be Prohibited.
Washington, Aug. 4.—Entirely apart from the resolution instructing the enrolling clerks of the house and of the senate to correct the Payne-Aldrich bill in order to make the reductions in duties on boots and shoes and harness and saddlery apply to calfskin products as well as leather from hides, Senator McCumber will offer another concurrent resolution relating to the drawback provision. The resolution will have the support of the senate conferees on the tariff bill, and probably will be adopted by the senate.

The effect of the McCumber resolution will be that the drawback provision will not apply to oil cake manufactured from imported flaxseed and that bonded mills shall not be permitted to sell byproducts of imported wheat.

TRUTH ABOUT WAGES.
Denials Made of Statements on German Pay.
Washington, Aug. 4.—Copies of the translation of the much-discussed German report on wages appeared on the desks of the senators today, a little more than twenty-four hours in advance of the time set for the final vote on the tariff bill. The pamphlet consisted of 134 pages, and was made up of denials by German manufacturers of statements presented by American manufacturers to the house ways and means committee in favor of increasing duties on various articles imported from Germany on the cost of production here and in that country.

Philippine Bill Passed.
Washington, Aug. 4.—The conference report on the Philippine tariff bill was today agreed to by the senate. Only the president's signature to make it a law remains.

MINISTER TO GUATEMALA.
Washington, Aug. 4.—The senate today confirmed the nomination of William F. Sands of the District of Columbia to be minister to Guatemala. Mr. Sands is now secretary of the embassy at Mexico City.

PARIS REVIVES THE GUILLOTINE
AS MEANS OF CAPITAL PUNISHMENT
Paris, Aug. 5.—A sudden official announcement that a public beheading would take place at 4:30 o'clock this (Thursday) morning in the boulevard (fronting the state prison, created a sensation in Paris, which had not seen an execution in fifteen years. Immediately immense crowds gathered at the scene, but they were kept back from the guillotine by heavy details of police and municipal guards.

Parisian sentiment has long been opposed to public executions, for in the past they were accompanied by scandalous scenes of revelry.

Despite this sentiment, parliament refused to abolish the death penalty, and in view of the revolting crime of the man executed this morning, President Fallieres refused to commute his sentence to life imprisonment. The victim was named Duchemin, aged 23, a butcher. In 1908 he stabbed his mother, and this not resulting in her death quick enough he finished her by strangulation. The motive for the crime was robbery.

CROWD BENEATH CIRCUS HORSES' TRAMPLING FEET

Fifteen Persons Injured During
Parade of Ringling Bros.'
Show at Ogden.

ANIMALS DRIVEN UPON
THROUGH BY A RUNAWAY

ONE VICTIM SO SERIOUSLY HURT
THAT HER RECOVERY IS
DOUBTFUL.

(Special to The Herald.)
Ogden, Aug. 4.—There was a fearful accident at the circus grounds at 11 o'clock this forenoon, just as Ringling's show was leaving the grounds for the parade. A horse attached to a buggy and driven by N. Lotgren of Huntsville became frightened beyond control when the calloffe started up. The animal broke from the driver, tore itself loose from the buggy that was filled with women and children, and dashed madly into one of the circus teams of six horses. It struck the middle team in such a way that the entire six horses were swung around with force into the crowd packed along the side of the street. Many women and children especially, were trampled under foot by the powerful horses before they could be brought under control.

Many Are Injured.
Mrs. Amanda Flynn, a feeble old lady of 76 years, was the worst sufferer. Her hip and wrist were fractured, and she was so bruised otherwise that little hope is entertained for her recovery.

Mrs. Henry Butler of Marriott sustained a broken leg, and her little son and daughter were also injured, but not seriously.

Miss Ira Fisher, a deaf girl from Farr West, was injured about the head.

Mrs. Ellen Holmes of North Ogden was injured in the neck, and Mrs. William Woodfield of the same place suffered a cut of her hand.

William Woodfield was badly cut about the head and face.

Altogether upward of fifteen persons were more or less badly injured. Many women and children were trampled upon in the excitement and confusion.

Tangle Straightened Out.
Charles Smith, an employee of the circus, caught the horses by the head and straightened them out as quickly as possible.

The injured were taken into the Brown drug store at the corner, and all that was possible was done for them. Those badly hurt were transferred at once to their homes.

No blame whatever is placed upon the Ringlings, as it was impossible for them to avoid the accident. The owner of the horse that caused all the trouble was warned time and time again. It is said, to take his nervous horse out of the crowd.

HAS SOLVED JOB'S RIDDLE.

Sin and Suffering Are Experience,
Says Mrs. Besant.

New York, Aug. 4.—Mrs. Annie Besant, the visiting exponent of theosophy, says she has solved the riddle that perplexed Job and drove Omar to divorce his wife and weep the Jocund daughter of the grape.

The presence of sin and suffering in the world, she told her auditors tonight, is to be explained by the hypothesis of reincarnation.

Sin and suffering, said Mrs. Besant, are experience and give increased spiritual power for the next incarnation. We go on solving sin and reaping experience until we attain ultimate perfection.

FAILS TO ASCEND.

Aviator Curtiss Meets Unfavorable
Conditions for Flying.

Minneapolis, Minn., Aug. 4.—Glen H. Curtiss, the Hammondsport, N. Y., aviator, declined to attempt flights here today. A sharp wind at daylight caused a postponement until sunset, when conditions were still unfavorable.

The aviator was much disappointed, for he had desired to try his world's record before sailing tomorrow for Europe to compete in aviation contests at Rheims. If weather conditions are favorable, Mr. Curtiss will attempt a flight at dawn tomorrow. At noon he will depart for France, taking with him a new aeroplane.

CHILD BURNED ALIVE.

Little One Loses Life While Playing
With Matches.

Great Falls, Mont., Aug. 4.—At Lewistown today the 3-year-old daughter of Archie McDonald, a well-known contractor of that city, was burned to death as a result of playing with matches. The little one was playing in the yard when the matches became ignited and she was terribly burned before her father, who was in an adjoining building, could reach her. She died a couple of hours later.

ACCUSED OF MURDER.
New York, Aug. 4.—Wong Bow, Chong, the Chinaman who has been in custody since Saturday following the fatal shooting of Luk Wing, the Chinese vice consul in this city, was today sentenced to life imprisonment by a coroner's jury. He was recommended to the Tombs to await the action of the grand jury.

GOVERNMENT WILL NOT INTERFERE WITH PRIVATE IRRIGATION PROJECTS

Seattle, Wash., Aug. 4.—Secretary of the Interior Ballinger, who has just returned from a conference in Portland with officers of the federal reclamation service, said today:

"The reclamation service will not play the dog in the manger policy toward private irrigation corporations. Instead, the government will give all possible encouragement to private enterprises where they do not conflict with established or projected federal reclamation projects.

"There should be no issue between private capital and the government, and land should not be withheld from entry beyond a reasonable period of time, where its development is within the range of private capital. The various projects, thoroughly to investigate the workings of the reclamation service, then to formulate a report thereon which will be made to President Taft direct, Mr. Ballinger continued.

"I observe that I have been severely criticised in some instances for what some folks have said to be, on my part, a falling away from the Roosevelt policies. This has reference to the federal control of sites for water enterprises and facilities in the west. We now have more land withdrawn from entry because of power sites than ever before in the history of the country. What I am trying to do is to cement the Roosevelt policies as to water power resources and to bring them into a state of homogeneous efficiency."
